ICoCTA 2024

ICoCTA 2024

Hangzhou, China October 18-20, 2024

2024 4th International Conference on Control Theory and Applications

ICoCTA 2024 will be held in Hangzhou, China. The conference will start with a reception on 18 October followed by two full days of technical sessions consisting of keynote lectures, oral presentations and poster presentations. ICoCTA 2024 is organized by Concordia University, Guangdong University of Technology and the Hong Kong Society of Robotics and Automation (HKSRA) and co-organized by Southern University of Science and Technology and Xiamen University of Technology.

International Advisory Committee

Yuanli Cai--Xi'an Jiaotong University, China

Alessandro Casavola--Universita dellaCalabria, Italy

Victor M. Preciado--University of Pennsylvania, USA

General Chair

Jie Chen--City University of Hong Kong, China

Conference Chairs

Chunyi Su--Concordia University, Canada

Qiang Yang--Zhejiang University, China

Guoxu Zhou--Guangdong University of Technology, China

Wenhai Wang--Zhejiang University, China

Program Chairs

Zhiwei Gao-- Northumbria University, UKS

hen Yin--Norwegian University of Scienceand Technology, Norway

Zhiyun Lin--Southern Universityof Science and Technology, China

International Program Committee

Kyongsu Yi--Seoul National University, Korea

Quang Ha--University of Technology Sydney, Australia

Yong Xu--Guangdong University of Technology, China

Publication Chair

Hui Peng-- Guangdong University of Technology, China

Award Chairs

Wei Zhang--Southern University of Science and Technology

Tian Qi--South China University of Technology, China

Keynote Chair

Weichao Xu--Guangdong University of Technology, China

Financial Chairs

Panshuo L i - - Guangdong University of Technology, China

Yu Feng--Zhejiang University of Technology, China

Publication History

Key Dates

Abstract Submission: April 18, 2024

Full Submission: May 2, 2024

Author Notification: August 2, 2024

Registration: September 2, 2024

Final Paper Submission: September 17, 2024

·CALL FOR PAPER·

Topics of interest include, but are not limited to:

- Linear Systems
- Aerospace Systems
- Mechatronics
- Robotics
- Environmental Systems
- Robust Control
- Intelligent Systems
- Uncertain Systems
- Learning Systems

- Control Applications
- Guidance & Flight Control
- Cognitive Control
- Control in Manufacturing and Production
- System Identification
- Design Methodologies
- Control Education
- Autonomous System
- Automation

- Machine Learning for Control
- Automotive Control
- Stochastic Systems
- MEMS in Control
- Medical Applications
- Modeling Noise and Vibration Control
- Network Control Systems
